Project log

Build your reputation by sharing a project update

Add update

9 Nov 2017: Kick-off date of the new COST Action CA16208 in Brussels. We will work to establish a baseline in the state of knowledge regarding **riparian vegetation**, coordinate **research** efforts, contribute to knowledge conversion from **science** to practitioners.

Dr. **Simon Dufour** is the Action Chair from Uni Rennes, four Working Groups also selected, website under development. Communication to stakeholders in focus.

See more info and **management committee** here: http://www.cost.eu/COST_Actions/6a/CA16208

418 Reads

Needs

Let's do it together! Please share:

- ◆ Pictures (Cloud folder?)
- ◆ articles, good practices, websites, videos,
- ◆ events – coming or connected conferences, workshops
- ◆ experience
- ◆ materials about connected scientific projects

Everything that can STRENGTHEN THE RELATIONS with other partners and look for other connected to the topic initiatives

Your views on practical issues:

- ◆ What type materials to be presented on the social media – who are they addressed for?
- ◆ How to feed the web-sites?
- ◆ Can you propose our webs to your organizations, partners?
- ◆ How to manage competition for BEST RIPARIAN PICTURE?
- ◆ Other issues
